International Pedigree on Show

Southern Slam 2026 brings together a strong mix of India's emerging junior talent and established senior players. The field includes Asian Junior and World Junior medalists, as well as senior players who have represented India at Asian and World-level competitions. This gives the tournament a rare combination of development pathway value and elite competitive experience.

Why Southern Slam Matters?

The tournament sits at the intersection of India's senior and junior performance pathways. With PSA ranking points available in the senior events and Asian Junior Ranking points across junior categories, Southern Slam provides meaningful competitive incentives at multiple stages of the player pathway. The presence of recent international medalists further raises the competitive standard and creates valuable match-play opportunities for India's next generation.
